A Message from the Long Island Learning Institute for Educators, LLC

Educators today are under tremendous pressure. Federal, state and local standards, as well as school report cards and media commentary have become critical components in the school community. The Long Island Learning Institute for Educators, LLC, is an organization that was founded by practicing teachers who face the same 21st century challenges as those who enroll in our courses. LILIE was formed to be an educator's tool to meet the challenges of ensuring student success. LILIE courses are designed to complement professional development plans, district strategic plans, and the current educational issues of all involved in the educating of our youth. LILIE prides themselves in providing meaningful courses that are realistically applicable and beneficial in the classroom. It is LILIE's goal that each teacher who participates in their classes exits with practical knowledge and new teaching insights and/or methods that can be successfully applied to his or her classroom.

LILIE In-Service Online Courses:

- Course offerings are aligned with both the district's professional development needs as well as with teacher's interest.
- Teachers learn according to their schedule. Classrooms are accessible via the internet. Online courses provide participants with maximum family and work flexibility and allow for successful management in all these areas of life while achieving meaningful professional development.
- Participants may communicate with classmates and instructor(s) at their most convenient times and from various locations. Project/assignment deadlines are easier to meet with such convenience.
- Access to materials available 24 hours a day, seven days a week.

LILIE Highlights:

- **Webpages:** All courses have their own webpage that are designed to showcase course curricula, objectives and various resources that are required for the course.
- **Discussion Boards:** LILIE course participants log onto their course via the lilieonline.com website with their login name and confidential password. Participants post comments at least 4 different times per week.
- **Open communication:** LILIE operates in a strictly transparent manner and in doing so, provides superintendents with all course curricula, access to view all currently running online courses including teacher participation and postings, access to view or request course logs attesting to minimum of 45 hours completed coursework, instructor biographies and links to course webpages and content.
